## Online Customer Chat Assistant – Up to \$35/Hour, Part-Time Available

### Description

### Overview of the Opportunity

A globally recognized consumer tech company is expanding its online support channels and is actively seeking remote team members for chat-based customer support. This role is tailored for individuals eager to enter the digital workspace without prior job experience or a formal degree. All communication is done via written chat—there are no phone or video interactions involved.

If you're comfortable typing, eager to learn, and want to get paid to help people online, this flexible remote role offers a rare chance to begin working from anywhere with full onboarding and daily team support.

### Your Responsibilities

#### Text-Only Customer Interaction

Engage with users who need help navigating services, accessing accounts, or completing transactions. You'll provide accurate responses through a web-based chat interface while maintaining a calm and professional tone.

#### Guided Resolutions with Prewritten Tools

Use our internal resources—response templates, chat shortcuts, and how-to articles—to answer customer questions quickly and clearly. You'll be trained on how to identify the right answers and deliver them efficiently.

#### Transferring Cases That Need Escalation

If a chat requires intervention from another department, your job will be to pass it along correctly using built-in routing tools. You won't need to troubleshoot technical issues on your own.

#### Maintaining Quality and Response Speed

Track each conversation using short drop-down logs and ensure you're responding in a timely, helpful manner. Ongoing support and AI suggestions help you stay fast and accurate.
