Virtual Customer Support Agent – \$28-\$35 Hourly, Entry-Level Welcome

Description

Job Overview

A growing international brand specializing in digital product sales is hiring remote Chat Representatives to support its global customer base. This is a fully remote, non-phone job that allows you to work from anywhere with an internet connection. No degree or formal work experience is needed—just strong written communication skills and a commitment to excellent service.

You will be the first line of support for customers reaching out through the company's live chat interface. This means answering questions about products, helping customers navigate the site, troubleshooting login issues, and providing order assistance. Everything happens through text, so if you're more comfortable typing than talking, this is the perfect entry-level opportunity.

Your Main Responsibilities

Engage With Customers via Live Chat

Respond to real-time customer inquiries through the brand's integrated chat system. You'll handle a wide variety of topics ranging from order tracking to technical issues to general questions about digital products.

Provide Accurate and Helpful Information

Use our preloaded scripts and internal documentation to offer answers that are clear, accurate, and helpful. You'll have resources to make answering common questions easy and efficient.

Work in a Fast-Paced, Multi-Chat Environment

You'll be expected to juggle multiple chat conversations at once, while staying focused and positive. Multitasking and maintaining a friendly tone is essential.

Flag Unusual Issues to the Right Teams

If a customer question goes beyond your scope, escalate it quickly and correctly. You won't be expected to resolve every issue—just the ones that fall within your training and tools.
